SEMINAR REPORT- Recent Advances in Capsule Technology

Date: 7th February 2020

A seminar on the topic 'Recent Advances in Capsule Technology' was arranged for the students of VIVA Institute of Pharmacy and other colleges likewise. The speakers of the day were associated to ACG Capsule Company which is the second largest manufacturing unit of capsules. The event started with lighting of lamp followed by Saraswati Vandana. The dignitaries were felicitated by Mr. Vishal Mardhekar (assistant professor). Principal, Dr. Sunita Ogale shared a few words and introduced the speakers.

The first session was conducted by Dr. Jnanadeva Bhat (General Manager- New product development in ACG Capsules). He gave a brief overview about the stages of drug discovery and the required documents for approval of the new drug. He also shared about phases of clinical trials along with different capsule filling machine operations. The session was continued by Anita Solanki (Senior Executive in Research and Development in ACG Capsules). She explained about the manufacturing of capsules. She gave details about the raw materials used for capsule manufacturing and gave an introduction of sustained release capsules. The final session was conducted by Dorene Almeida (Senior Executive in Research and Development in ACG Capsules). She threw light upon different technologies introduced in capsule manufacturing. She explained about different types of capsules like hermetically sealed capsules, dry powder inhalations, capsules as antidotes and so on. A short demonstration of these capsules were also carried out for the students.

The students, staff and dignitaries proceeded for lunch followed by a poster competition on the seminar topic. Students showed active participation in the competition and the dignitaries enjoyed the different ideas put forth by the students. The winners of the poster competition were then felicitated with cash prize and certificates. The entire event was very informative, enjoyable and was a success.
