

ABOUT INSTITUTE

VIVA Institute of Pharmacy (VIP) was established in the year 2010 by Shri Vishnu Waman Thakur Charitable Trust under the Presidentship of Shri. Hitendraji Thakur with a definite mission to develop the standard of the institute above benchmark level, providing students with advanced knowledge and latest technology in their chosen discipline of healthcare. It has an aesthetically designed and elegantly built campus furnished with state of art equipment and facilities. It nurtures a unique system of education for creating dynamic leaders in the pharmaceutical sector, entrepreneurs, academicians, researchers and professionals who contribute to the development of society and nation at large.

VISION

To evolve as a leading learning institute with essential, skillful and value based education by providing a conducive environment to uplift the full potential of curious minds.

MISSION

1. To provide high standards of pharmacy education through excellent resources, professional collaborations and ethical values.
2. To Foster Academic and research domain amongst students and staff members.
3. To encourage students to face the challenges for a Professional career in Pharmacy.
4. To create a dynamic Pharmacist to marshal the expanding needs of the pharmaceutical and healthcare industry for the benefit of society.

ABOUT SEMINAR

Packaging is a rising science and a successful contributor for pharmaceutical industries. Constant transformation in pharmaceuticals demands for reliable, efficient and speedy packaging solutions that urges for sustainable approach. For globalization, industries needs to match the international standards and quality with holistic perspective in packaging. This mandates the understanding and responsible manufacturing by incorporating scientific methods in this field. This attracted us to thoroughly magnify knowledge from experts.

Our Topic “Pharma Packaging : Revolution Towards Sustainable Innovations“ is planned for enhancing and exchange of knowledge from professionals working towards revolution in packaging. This will also be helpful towards research in unique packaging for tailored pharmaceuticals.
